-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Status of Application

1. The application cannot be allowed (i.e., cannot be patented) at this time because of the following:

The application fails to meet the legal requirements of 35 United States Code (USC).

Additionally, the application has formal defects governed by 37 Code of Federal Regulations (CFR).

Defects under 35 USC are very serious and **must** be overcome. Deficiencies under 37 CFR are less serious, but applicant still must overcome them. The examiner, if needed, can assist applicant in fulfilling the requirements of 37 CFR.

2. All statutes (35 USC) and rules (37 CFR) are provided on the PTO website at www.uspto.gov. After selecting the link for *Patents*, links for 35 USC and 37 CFR can be found in the *Laws & Rules* section.

Specification

2. This application does not contain an abstract of the disclosure as required by 37 CFR 1.72(b). An abstract on a separate sheet is required.
3. Applicant is reminded of the proper content of an abstract of the disclosure.

A patent abstract is a concise statement of the technical disclosure of the patent and should include that which is new in the art to which the invention pertains. If the patent is of a

Art Unit: 2611

basic nature, the entire technical disclosure may be new in the art, and the abstract should be directed to the entire disclosure. If the patent is in the nature of an improvement in an old apparatus, process, product, or composition, the abstract should include the technical disclosure of the improvement. In certain patents, particularly those for compounds and compositions, wherein the process for making and/or the use thereof are not obvious, the abstract should set forth a process for making and/or use thereof. If the new technical disclosure involves modifications or alternatives, the abstract should mention by way of example the preferred modification or alternative.

The abstract should not refer to purported merits or speculative applications of the invention and should not compare the invention with the prior art.

Where applicable, the abstract should include the following:

- (1) if a machine or apparatus, its organization and operation;
- (2) if an article, its method of making;
- (3) if a chemical compound, its identity and use;
- (4) if a mixture, its ingredients;
- (5) if a process, the steps.

Extensive mechanical and design details of apparatus should not be given.

Claim Objections

4. The claim is objected to because of the following informalities:

A claim must have one period. See MPEP 608.01(m). The claim should be rewritten as a single sentence. Appropriate correction is required.

The claim contains the trademarks/trade names Real Estate Video Service® (line 1) and Realtors® (lines 2 & 5). Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the

Art Unit: 2611

requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe a marketing tool (Real Estate Video Service®) and an organization (Realtors®) and, accordingly, the identifications/descriptions are indefinite.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. The claim is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The claimed invention is a real estate marketing tool for providing streaming video over a global computer network, providing convenience to sellers and purchasers of real estate.

Art Unit: 2611

Applicant fails to adequately describe how the marketing tool is involved in the provision of video streaming. The source, destination, method of distribution, and retrieval of the video content were not described.

7. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

8. The claim is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

a. The phrase "etc" renders the claim indefinite because the claim includes elements not actually disclosed (those encompassed by "etc"), thereby rendering the scope of the claim unascertainable. See MPEP § 2173.05(d).

Claim Rejections - 35 USC § 102

9. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Art Unit: 2611

10. The claim is rejected under 35 U.S.C. 102(e) as being anticipated by Kenner (Kenner et al., US006269394B1).

The use of “or” (line 4) permits interpretation of claim limitations in the alternative form. Claim limitations recited in the alternative form are met by reference(s) disclosing any of the elements of the limitation.

Kenner discloses a marketing tool (col. 4, lines 22-35) to provide video streaming over a Global Computer Network (col. 6, lines 53-55 & col. 26, lines 35-40) of videos of real property inside and out, with audio (col. 6, lines 27-35) to provide convenience to Realtors® and those looking to purchase, sell, etc... Real Property (col. 4, lines 22-35).
